

# CUMULATIVE INDEX 1996

## Volume 23

---

March	COMPLICATED LABOR AND DELIVERY II, pages 1-159
June	NEONATAL GASTROENTEROLOGY, pages 161-416
September	ETHICAL DILEMMAS IN THE PRENATAL, PERINATAL, AND NEONATAL PERIODS, pages 417-624
December	CONGENITAL DIAPHRAGMATIC HERNIA, pages 625-907

---

Note: Page numbers of article titles are in **boldface** type

- Abandoned infants. See *Socially complex family*.
- Abdomen, pressure in, gastroesophageal reflux and, 307
- Abdominal pain, in pregnancy, ultrasonography in, 134
- Abortion, ethical issues in, in multifetal pregnancy reduction, 446-448
- Abruptio placenta, ultrasonography in, 122-126
- Absorption (nutrient), carbohydrates. See also *Carbohydrates, assimilation of*.  
diarrhea in, 220-221  
in preterm infants, 231-235  
in preterm infants, **229-243**  
carbohydrates, 231-235  
enzymes in, 231-235  
hormonal effects on, 240  
lipids, 237-239  
minerals, 239-240  
protein, 235-237  
surface for, 231  
problems with, diarrhea in, 220-221  
in short bowel syndrome. See *Short bowel syndrome*.
- Acetoacetate, intestinal metabolism of, 252-254
- Acetylcysteine, in iron storage disease, 328
- Achalasia, imaging of, 391
- Acidosis, maternal-fetal, during labor, 4-6
- Adenovirus infections, liver disease in, 338
- Aganglionosis, of colon, 367-370, 399-400
- Airway abnormalities, in diaphragmatic hernia, 772
- Alkalinization therapy, for diaphragmatic hernia, neurodevelopmental effects of, 878-879
- Allopurinol, as oxyradical inhibitor, 9-10
- Alpha-fetoprotein measurement, in diaphragmatic hernia, 702
- Alveoli, abnormalities of, in diaphragmatic hernia, 772
- Amino acids, absorption of, in preterm infants, 235-237
- Amniocentesis, in diaphragmatic hernia detection, 704  
in lung maturation evaluation, 59
- Amniotic fluid, volume of, assessment of, in post-term pregnancy, 132  
ultrasonography in, 120-122, 129, 132  
lung growth and, 732-733, 742-743
- Amniotic fluid index, assessment of, ultrasonography in, 121-122
- Amphiregulin, as gastrointestinal trophic factor, 268-269
- Amylase, in digestion, 199-200  
in human milk, 202-203
- Analgesia and anesthesia, in labor and delivery, acid-base status and, 4-6  
breech, 44  
of twins, 110  
preterm, 64-66  
vaginal, after cesarean delivery, 146
- Analogic reasoning, in negligence determination, 583-588
- Anemia, autoimmune hemolytic, hepatobiliary disorders in, 339-340
- Anencephaly, ethical issues in, 425, 568

- Angiogenesis, in pulmonary vascular development, 712
- Antibiotics, in preterm birth prevention, 58
- Antioxidants, in fetus, 9
- abnormalities of, in diaphragmatic hernia, 776-777
- in iron storage disease, 328
- Antitrypsin deficiency, liver disease in, 321-323, 340
- Anus, imperforate, imaging of, 397-398
- Aortic rings, tracheoesophageal, imaging of, 390
- Apgar score, 17-18
- in severe asphyxia, 546
- Apnea, gastroesophageal reflux and, 308-309
- Apolipoproteins, absorption of, in preterm infants, 238
- Apoptosis, in gastrointestinal mucosa, 295
- Apparent life-threatening events, gastroesophageal reflux and, 308-309
- Asphyxia, perinatal, 509-518
- decision-making in, algorithm for, 567
- conflicting values in, 517
- in delivery room, 544-548
- parental, 514-516
- physician, 511-514
- definitions involved in, 510-511
- oxyradical metabolism and, 7-10
- physiology of, 544-546
- severe, markers for, 546-548
- Aspiration, laryngotracheal, imaging of, 390-391
- Assessment, of neonatal status, 17-20
- Autoimmune hemolytic anemia, hepatobiliary disorders in, 339-340
- B lymphocytes, in mucosal immunity, 296-297
- Baby Doe regulations, 478, 481, 483
- asphyxia and, 516
- parental role and, 574-575
- Baby K (anencephalic), ethical issues in, 425, 568
- Baby L (prolonged ventilation), 563-564
- Bacteremia, hepatobiliary disorders in, 330
- Behavioral disorders, in drug abuse, 498-499
- Best interests, of patient, determination of, 420-421
- in asphyxia, 511
- Betamethasone, in pulmonary maturation, in preterm birth prevention, 57-58
- Bethanechol, in gastroesophageal reflux, 313
- Bile acids, deficiency of, in short bowel syndrome, 380
- metabolism of, inborn errors of, 328-329
- Biliary atresia, 341-344
- Biliary hypoplasia, 342-343
- Biliary tract disorders. *See Hepatobiliary disorders.*
- Biopsy, rectal, in Hirschsprung's disease, 369
- Birth, pulmonary vascular transition at, 711-726, 783-785
- development and, 711-715
- mediators of, 715-720
- Birthweight, resuscitation decisions based on, 540-544
- very low. *See Very low birthweight infants.*
- Bleeding, vaginal, ultrasonography in, 122-128
- Blood flow, pulmonary, in lung development, 730
- Blood gas analysis, in diaphragmatic hernia, in outcome prediction, 864-865
- of cord blood, in preterm labor and delivery, 64
- B-lymphocyte zone, in mucosal immunity, 289-290
- Boarder babies. *See Socially complex family.*
- Bochdalek, Victor Alexander, 639-642
- Bohr effect, in maternal-fetal gas transport, 2-4
- Bombesin, as gastrointestinal trophic factor, 273-274
- Bonding, drug abuse effects on, 498-499
- in birthing process, 20-21
- Bottle feeding, oral motor function in. *See Oral motor function.*
- Brachial plexus palsy, in macrosomia, 74
- Brachycephaly, fetal weight estimation in, 118
- Brain death, determination of, 426
- Breast feeding, oral motor function in. *See Oral motor function.*
- Breathing, fetal, 730-731
- detection of, ultrasonography in, 129
- lung growth and, 733-734, 741-742
- initiation of, at birth, 14-15
- sucking coordination with, 165-166
- Breech delivery, 33-37
- head entrapment in, 39-41
- historical review of, 31-32
- imaging in, 41-43
- labor management in, 43-44
- neurologic outcome in, 44-45
- preterm, 34-37
- resident training in, 45-46
- term, 33-34
- versus breech presentation, 32
- Breech presentation, 31-49
- complete, delivery options for, 34
- congenital anomalies in, 32
- frank, delivery options for, 33-34
- in preterm delivery, 69-71

- nonfrank, delivery options for, 34  
 of twins, 97  
 prevention of, external cephalic version  
   in, 37-39  
 ultrasonography in, 120  
 versus breech delivery, 32
- Bronchopulmonary dysplasia,  
 gastroesophageal reflux and, 309  
 oxyradical metabolism and, 7-8
- Cadaverine, as gastrointestinal trophic  
 factor, 275
- Calcium, absorption of, in preterm infants,  
 239
- Carbohydrates, absorption of, in preterm  
 infants, 231-235  
 assimilation of, 211-228  
   development of, 213-216  
   diarrhea in, 220-221  
   fermentation in, 216-219  
   physiology of, 212-220  
   digestion of, 199-201  
   human milk enzymes for, 202-203  
   in preterm infants, 231-235  
   fermentation of, in colon, 216-219  
   in human milk, 212  
   in preterm infant formulas, 212  
   malabsorption of, diarrhea in, 220-221  
   in short bowel syndrome, 380-381
- Carbon dioxide, partial pressure of, in  
 diaphragmatic hernia, versus severity,  
 864-865  
 transport of, maternal-fetal. *See Gas  
 transport, maternal-fetal.*
- Carboxyl ester lipase, in digestion, 198-199
- Carboxypeptidases, in digestion, 197
- Cardiopulmonary resuscitation, in delivery  
 room. *See Decision-making, for  
 resuscitation, in delivery room.*
- Care. *See also Intensive care; Withholding  
 and withdrawing care.*  
 futile, controversy over, 565-567  
 definition of, 510  
 palliative, in perinatal asphyxia, 515-516  
 standard of. *See Standard of care.*
- Care mapping, for neonates, 19
- Cathepsins, in digestion, 192-193
- Catheters, umbilical, imaging of, 406
- Cephalic version, external, in breech  
 presentation prevention, 37-39  
 in twin delivery, 108-109
- Cervix, measurement of, in threatened  
 premature labor, ultrasonography in,  
 130-131  
 wedging of, in labor induction, 131-132
- Cesarean section, in breech presentation,  
 31-32, 35-37  
 in macrosomia, 73  
 in preterm delivery, 64, 67-68  
 in triplet delivery, 111-112  
 in twin delivery, at gestational age of 24  
   weeks, 105-108  
   indications for, 93  
   studies favoring, 98-99  
   weighing greater than 1700 grams, 108  
 ultrasonography in, postoperative, 134-  
   135  
   preoperative, 133-134  
 vaginal birth after, 141-153  
   controversies over, 145-146  
   eligibility for, 142-145  
   future investigations in, 148-149  
   management of, 146-148  
   monitoring in, 145  
   oxytocin in, 145-146  
   success prediction in, 144-145  
   with twins, 143-144
- Chaos theory, in negligence determination  
 of, 583-585
- Chenodeoxycholic acid, in bile acid  
 metabolic errors, 329
- Chest drainage, in diaphragmatic hernia,  
 852
- Chest wall deformities, in diaphragmatic  
 hernia, 882
- Child abuse, in socially complex family.  
*See Socially complex family.*  
 legal issues in, delivery room resuscita-  
 tion decision-making and, 534
- Choledochal cyst, 343
- Cholestasis, ductal, 341-343  
 hepatitis and, 344  
 hepatocellular, 338-341  
 imaging in, 402-403  
 in bile acid metabolic errors, 328-329  
 treatment of, 343
- Cholestyramine, in cholestasis, 343
- Chromosomal abnormalities, in  
 diaphragmatic hernia, 689-692, 704  
 mortality and, 706
- Chylomicrons, absorption of, in preterm  
 infants, 238
- Chymosin, in digestion, 192
- Chymotrypsin, in digestion, 197
- Cimetidine, in gastroesophageal reflux, 313
- Circulation, fetal, 13-14  
 neonatal, stabilization of, 15-17
- Cirrhosis, in iron storage disease, 328
- Cisapride, in gastroesophageal reflux, 313
- Clinical Risk Index for Babies (CRIB), 19
- Cocaine abuse, preterm birth in, 54-55
- Collagen, in pulmonary vascular  
 development, 713
- Colon, carbohydrate fermentation in,  
 215-219  
 Hirschsprung's disease of, 367-370, 399-  
   400  
 imaging of, 398-402

Colon (*Continued*)

- short bowel syndrome effects on, 380-381
- Communication, facilitation of, ethics committee role in, 431
- for decision-making, in perinatal asphyxia, 513-514, 516
- transparency model for, 423-424
- Congenital disorders, detection of, ultrasonography in, 122
- diaphragmatic hernia. *See* *Diaphragmatic hernia*.
- macrosomia in, 72-73
- severe, resuscitation decision-making in, 531-538
- Consent, maternal incapability for, 456-457
- Contrast media, for colon imaging, 401-402
- Corticosteroids, in pulmonary maturation, in preterm birth prevention, 57-58
- in surfactant production enhancement, in diaphragmatic hernia, 853, 855
- Cortisol, as gastrointestinal trophic factor, 272-273
- Cyclic guanosine monophosphate, in pulmonary vascular transition at birth, 720
- Cyst(s), choledochal, 343
- duplication, imaging of, esophageal, 389-390
- gastric, 391
- small bowel, 397
- Cystic fibrosis, liver disease in, 323-324, 340
- meconium ileus in, 361
- Cytokines, in mucosal immunity, 290-291, 293-295
- Cytomegalovirus infections, liver disorders in, 332-333

## Death, imminent, definition of, 510-511

- Decision-making, for resuscitation, in delivery room, 529-550
  - avoidance of, 531
  - didactic approach to, 536-537
  - ethics of, 532-533
  - euthanasia in, active versus passive, 537-538
  - gestational age basis for, 539-540
  - hospital staff viewpoint in, 536
  - in severe asphyxia, 544-548
  - legal issues in, 533-535
  - morality of, 532-533
  - of extremely premature infants, 538-544
  - parental viewpoint in, 535
  - physician viewpoint in, 535-536
  - responsibility for, 543-544

- value judgments in, 533
- weight basis for, 540-543
- with severe congenital anomalies, 531-538

- for very low birthweight infant care, surrogates for, 477-483
- in perinatal asphyxia, conflicting values in, 517
- parental, 514-516
- physician, 511-514
- insufficient information for, 422-423
- religious values in, in perinatal asphyxia, 517
- responsibility in, 419-420
- spiritual values in, in perinatal asphyxia, 517
- team for, 422-423
- Deferoxamine, in iron storage disease, 328
- Delivery. *See* *Labor and delivery*.
- Delivery room, resuscitation in, decision-making in. *See* *Decision-making, for resuscitation, in delivery room*.
- Dendritic cells, in mucosal immunity, 299
- Diabetes mellitus, maternal, fetal weight estimation in, ultrasonography in, 119
- macrosomia in, 72, 75-76, 78-79
- Diaphragm, development of, 656-657
- Diaphragmatic hernia (congenital), 465-472
  - anatomy of, 655-669
  - animal models for, 753-769, 813-822
  - developmental anatomy and, 657-668
  - left-sided, 657-668
  - pig, 814
  - surgically-created, 816-820
  - teratogen-induced, 815-816
- anomalies associated with, 466, 689-692
- clinical features of, historical review of, 625-642
- developmental anatomy of, 655-669
- drugs causing, 695-696
- environmental factors in, 695-696
- epidemiology of, 671-688
- etiology of, 465-466, 689-699
- familial, anomalies associated with, 690
- epidemiology of, 694-695
- fetal heart status in, 795-812
- fetal lung growth in, mechanical forces and, 727-740, 741-752
- gender differences in, 693-694
- genetic factors in, 689-699
- historical review of, 625-653
- imaging of, 405
- inheritance mode of, 694-695
- management of, historical review of, 642-649
- in utero, 823-841
  - complete, 831-832
  - ethical concerns in, 469-471, 828
  - EXIT procedure in, 834

- experimental rationale for, 824-825
- future directions in, 835-836
- maternal perioperative care in, 830
- methods for, 467-469
- Plug Lung Until it Grows procedure in, 833-835
- prenatal diagnosis importance in, 826-828
- technique for, 825-826, 828-830
- postnatal, 843-872
  - chest drainage in, 852
  - current approach to, 865-866
  - deferred, 845-847
  - extracorporeal membrane oxygenation in, 849-851, 879-881
  - high-frequency ventilation in, 848-849
  - historical review of, 843-844
  - liquid ventilation in, 856-858
  - mechanical ventilation in, 847-848
  - nitric oxide inhalation in, 858-862
  - outcome of, 864-865
  - pulmonary mechanics and, 845-847
  - resuscitation in, 845
  - surfactant replacement in, 852-856
  - surgery in, 662-663
- morbidity in, 683-684
- mortality in, 680-683
  - prediction of, 701-726
- outcome of, 671-688, 873-887
  - demographics and, 873-874
  - gastroesophageal reflux disease, 875-877
  - growth retardation, 875
  - hearing loss, 881-882
  - musculoskeletal deformities, 882-883
  - neurodevelopmental, 878-882
  - recurrence, 883-884
- pathology of, historical review of, 625-642
- prenatal diagnosis of, 466, 701-726
- prevention of, 678
- prognosis for, 467
  - versus prenatal sonography findings, 826-828
- pulmonary parenchymal abnormalities in, 771-779
- pulmonary vascular abnormalities in, 781-794
- recurrent, second surgery for, 883-884
- right-sided, heart structure in, 803-804
- surgical repair of, 863
- severity of, versus blood gas values, 864-865
  - with liver in chest, fetal surgery for, 832
- Diarrhea, in carbohydrate malabsorption, 220-221
  - in short bowel syndrome, 380
- Didactic approach, to decision-making, for resuscitation, in severe congenital anomaly, 536-547
- Diet, in gastroesophageal reflux, 312
- Digestion, 191-209
  - enzymes for, 201-203, 231-235
  - gastric phase of, 191-196
  - intestinal phase of, 196-199
  - of carbohydrates, 199-201. See also *Carbohydrates, assimilation of*.
  - human milk enzymes for, 202-203
  - in preterm infants, 231-235
  - of fat, human milk enzymes for, 201-202
  - in intestine, 198-199
  - in stomach, 193-196
  - of protein, 191-193, 196-198
- Digital radiography, in breech delivery, 42-43
- 2,3-Diphosphoglycerate, in maternal-fetal gas transport, 2-4
- Diverticulum, Meckel, imaging of, 396
- Diving reflex, in oxyradical regulation, 9
- Dolichocephaly, fetal weight estimation in, 118
- Dome epithelium, in mucosal immunity, 288-289
- Drainage, chest, in diaphragmatic hernia, 852
- Drugs, abuse of, in pregnancy. See *Socially complex family; Toxicology testing, in neonates*.
- diaphragmatic hernia from, 695-696
- Dubin-Johnson syndrome, liver disease in, 340
- Ductal cholestasis, 341-343
- Ductus arteriosus diameter, in diaphragmatic hernia, 797
- Duhamel pull-through operation, in Hirschsprung's disease, 369-370
- Duodenoduodenostomy, in duodenal atresia, 357
- Duodenojejunostomy, in duodenal atresia, 357
- Duodenum, atresia of, 354-358, 394
  - embryology of, 355
  - stenosis of, 394
- Duplication cysts, imaging of, esophageal, 389-390
  - gastric, 391
  - small bowel, 397
- Dysphagia, imaging of, 390-391
- Dystocia, shoulder, in macrosomia, 73-76, 79-80
  - ultrasonography in, 133
- Echovirus infections, liver disease in, 338
- Economic considerations, in sustaining brain-damaged pregnant patient, 461-462
  - in very low birthweight infant care, 483-485, 597-608

- Education, for hospital ethics committee, 430-431
- Elastases, in digestion, 197
- Elastin, in pulmonary vascular development, 713
- Elderly persons, intensive care of, epidemiology of, 597-608
- Embryology, of diaphragm, 656-657  
of lung, 728
- Encephalopathy, hypoxic-ischemic, physiology of, 10-12
- Endoscopy, fetal, in diaphragmatic hernia management, 835-836
- Endothelin, in persistent pulmonary hypertension, 788  
in vascular tone mediation, 715
- Endotoxin, liver injury from, 330
- Enema, contrast, in imaging, 401-402
- Enteral feeding, in short bowel syndrome, 381-383
- Enterocolitis, necrotizing, 370-373  
imaging in, 402  
lactose fermentation and, 219  
oxyradical metabolism and, 7-8  
short bowel syndrome in. *See Short bowel syndrome.*
- Enterocytes, digestive enzyme secretion from, 196-199
- Enterokinase, in digestion, 197
- Enteropeptidase, in digestion, 197-198
- Environmental factors, in diaphragmatic hernia, 695-696
- Eosinophils, in mucosal immunity, 298
- Epidermal growth factor and receptor, as gastrointestinal trophic factor, 268-269  
in lung development, 763, 765-767
- Epidural analgesia, in breech delivery, 44  
in vaginal birth, after cesarean delivery, 146
- Episiotomy, in preterm delivery, 69
- Epithelium, intestinal, in mucosal immunity, 290-295
- Erb's palsy, in macrosomia, 81
- Erythromycin, in preterm birth prevention, 58
- Esophagitis, in gastroesophageal reflux, 308
- Esophagus, atresia of, 387-389  
duplication cysts of, 389-390  
endoscopy of, in gastroesophageal reflux, 311  
gastric reflux into. *See Gastroesophageal reflux.*  
imaging of, 387-391  
lower sphincter of, abnormalities of, reflux in, 306  
stenosis of, 390
- Ethical issues, best interests in, 420-421  
changing nature of, 417-428  
decision-making in. *See Decision-making.*  
ethics committee for, 429-436  
future developments relating to, 424-426  
guidelines for, American Academy of Pediatrics, 424  
in abortion, multifetal pregnancy reduction and, 446-448  
in anencephaly, 425, 568  
in approaches to care, individualized, 419  
statistical, 419  
wait until certainty, 418-419  
in asphyxia, 509-518  
in brain damage, maternal, 453-464  
in brain death, 426  
in care distribution across generations, 597-608  
in delivery room, 529-550  
in diaphragmatic hernia, 465-472  
in extracorporeal membrane oxygenation, 524  
in fetal surgery, for diaphragmatic hernia, 828  
in mechanical ventilation, 551-561  
in multifetal pregnancy reduction and selective termination, 437-451  
in negligence, 583-595  
in socially complex family, 609-620  
in technology introduction, 519-527  
in toxicology testing, 491-507  
in viability limits, 473-489  
in withholding and withdrawing care.  
*See Withholding and withdrawing care.*  
outcome questions in, 421-422  
responsibility in, 419-420  
transparency concept in, 423-424
- Euthanasia, in severe congenital anomaly, active versus passive, 537-538  
moral aspects of, 532-533
- Exopeptidases, in digestion, 197
- Expert testimony, in negligence determination, 585-587, 591-592

- Vascular tone, fetal, mediators of, 713-715
- Vasculogenesis, in pulmonary vascular  
development, 712
- Ventilation, high-frequency, in  
diaphragmatic hernia, 848-849  
in diaphragmatic hernia, neurodevelop-  
mental effects of, 878-879  
initiation of, at birth, 14-15  
liquid, in diaphragmatic hernia, 856-858  
mechanical, gastroesophageal reflux  
and, 307  
in diaphragmatic hernia, preoperative,  
847-848  
in level II nurseries, evaluation of,  
551-561  
in level III nurseries, referral to, 558-  
559
- Ventilation Index, Modified, in  
diaphragmatic hernia outcome  
prediction, 865
- Ventricular septal defect, with  
diaphragmatic hernia, 805
- Very low birth weight infants, delivery of,  
51-71  
anesthesia and analgesia in, 64-66  
causes of, 53-55  
cesarean, 67-68  
cocaine and, 54-55  
diagnostic amniocentesis in, 59  
episiotomy in, 69  
forceps in, 68  
gestational age estimation in, 60-62  
heart rate monitoring in, 62-64  
in abnormal presentations, 69-71  
in idiopathic preterm labor, 54  
in premature rupture of membranes,  
54  
labor management in, 66-67  
mortality in, 51-52  
overview of, 51-59  
preparations for, 62-64  
prevention of, pharmacologic therapy  
for, 55-59  
transfer to appropriate facility for,  
52-53  
ultrasonography in, 61-62  
weight estimation before,  
ultrasonography in, 119-120  
with twins, 71
- ethical issues concerning, 473-489  
delivery room resuscitation decision-  
making, 538-544  
economic issues and, 483-485  
neurodevelopmental outcome and,  
476-477  
spokesman in, 477-483  
technology and, 474-475  
treatment option approaches and,  
485-486  
viability limits and, 475-476  
intensive care of. *See Intensive care.*  
outcome of, 421-422
- Viability, in extreme prematurity,  
resuscitation decision-making and,  
538-544  
limits of, changing nature of, 530-531  
ethical issues in, 475-476  
maternal brain injury management and,  
459-460  
threshold for, 424-425
- Visceral situs abnormalities, imaging of,  
405-406
- Vitalism, belief in, 530
- Vitamin(s), supplementation with, in  
cholestasis, 343
- Vitamin A deficiency, diaphragmatic  
hernia from, 696
- Vitamin K, in intraventricular hemorrhage  
prevention, 59
- Volvulus, 364-367, 394-395
- Vomiting, in gastroesophageal reflux,  
307  
in midgut volvulus, 365
- Wait until certainty approach, in perinatal  
asphyxia, 512
- Wait until near certainty approach,  
418-419, 578
- Watershed phenomenon, in hypoxic-  
ischemic encephalopathy, 11
- Weaning, intestinal metabolism effects of,  
257-261
- Webs, gastric, imaging of, 392
- Weight, fetal, ultrasonographic estimation  
of, 117-120
- Wind-sock deformity, in duodenal atresia,  
355
- Withdrawal symptoms, in neonatal drug  
exposure, 494-495
- Withholding and withdrawing care,  
American Academy of Pediatrics  
guidelines for, 424  
ethical issues, 426  
Linares incident, 576

- Messenger case example, 575-579
  - parental discretion in, 573-581
  - physician role in, 563-571
    - clinical quandary in, 565
    - examples of, 567-568
    - futility debate in, 565-567
    - historical background of, 564-565
- Woods maneuver, in macrosomia, 80-81
- Xanthine oxidase, in oxyradical formation, 9
- Zaprinast, in persistent pulmonary hypertension, 661-662
- Zavanelli maneuver, in macrosomia, 81
- Zinc, absorption of, in preterm infants, 240
